

Wayne Mittelstaedt

> Summary

After more than 3 years working in project management, I'm looking to begin the next phase of my career in software development. I began Lambda School's Full Stack Web Development in March of 2019 and will be finished in May of 2020. I'm looking for something that will adequately challenge me and help me grow as a developer. Visit my website to see some projects I've completed and to see the full course curriculum, visit <https://learn.lambdaschool.com/course/cs-fsw>
